

FRANCE COURT STRUCTURE FOR COPYRIGHT CASES

Note

A case ruled by the Supreme Court can be sent back to a Court of Appeal for a new judgment. Once the Court of Appeal has decided, this latter decision can be challenged another time before the Supreme Court.

Special features

There is a new 'Copyright regulator' called the Regulatory Authority for Technical Measures (*Autorité de Régulation des Mesures Techniques – ARMT*), which was created by the law implementing the EUCD and set up by a Decree of 4 April 2007.
